ARDMORE, WEDNESDAY, APRIL 21.

WITH six cream-colored horses

to draw Victoria's carriage in the

jubilee parade, the procession should go

skimming along.

MAYBE the passengers on the

St. Louis airship are a group of

local grain speculators trying

to catch wheat at the top notch.

"JACK, the hugger, has been

fined \$300 for his offense and he

probably now has his own idea

as to what constitutes a "financial

squeeze."

THE bloodthirsty Sultan of

Morocco's fondness for his

Scotch bagpiper may be due to

the fact that the latter always

brings in his "kilt" with him.

"JACK" ASTOR advises the

United States government to

purchase Cuba, thus emphasizing

the significance of the first

two syllables of his name.

OUR new contemporary, the

Herald, has ceased to exist after

two issues. Disagreement between

the parties interested is cited as

the cause.

THE ARDMOREITE is in receipt

of an article from some one at

Pauls Valley, we presume for

publication. The fact that the

writer does not send his name

with the article denies him the

feature of seeing it in print.

MR. BRISTOW, fourth assistant

postmaster general, has appointed

334 postmasters in three

days, a feat which should certainly

entitle him to the "fast

mail" record.

WAR news has given the

wheat pit an electric shock.

The beauty of it is that so long

as there is war, it makes no

difference which side whips.

The longer the war and the

more the nations involved the

better, so far as wheat

holders are concerned. When

men are fighting they not only

cannot be raising bread, but

they are consuming and wasting

more than the usual supply.

It should be made a matter of public

knowledge that DeWitt's Witch

Hazel Salve will speedily cure piles

of the longest standing. It is the

household favorite for burns, scalds,

cuts, bruises and sores of all kinds.

Ordered to Leave Sherman.

Sherman, Tex., April 20.—

Last night a committee composed

of about thirty representative

citizens of this city called on

B. F. Butts, well known in

St. Louis and Kansas City, and

through a spokesman invited

him to leave the city before the

sun set. This Mr. Butts prom-

ised to do, saying he would re-

turn to Kansas City. Today

he bought tickets and left on a

morning train.

The cause which led to this

step by the committee was

brought on by Butts talking in

an indecent manner of the men

and women of the South, the

exact language, it is said, being

unfit for publication. Mr. Butts

does not deny making the

remarks, but claims they

were misconstrued. He also

says he does not blame the

committee for the action taken.

No threats of violence were

made against Butts by anyone

of the committee. The affair

has created a great deal of talk

and feeling in the city today, as

Butts is the singer who came to

the city with Rev. J. B. Cul-

pepper, who is conducting a re-

vival here, Butts having charge

of the music, and he had made

a favorable impression.

Unconditional surrender is the

only terms those famous little pills

known as DeWitt's Little Early

Risers will make with constipation, sick

headache and stomach troubles.

A Large Tank.

Active operations will be be-

gun on Monday on the railroad

tank one and one-half miles

north of the city and on the

west side of the track. Spec-

ifications for the tank were re-

ceived here today. It will cover

ten acres of land, and when

once filled with water will be a

boon which the Santa Fe people

alone can appreciate.

The Kingstonia is the leading

New York mourns the loss of

Fitzsimmons the lobster, the

giant of lobsters, which lacked

but an eighth of an inch of two

feet in length and weighed 30

pounds. He has been a show

at the aquarium for some

weeks, since he was caught off

Sandy Hook, at the time when

the man he was named for was

knocking out Mr. Corbett.

### Stricken Chandler.

The Chandler News greeted

our office this morning and a

more welcome missive has not

been received here lately. Un-

der the date of the 16th inst.,

this is the first edition of a

Chandler paper we have seen

since that memorable day of

destruction, March 30th, when

the whole city was swept away,

and death and ruin was mani-

fest on all sides. Among other

pitiful sayings in the editorial

columns of the News we see the

following:

Chandler has become a city

of cave dwellers.

It is not improbable that

Chandler children in the future

will interpret B. C. as "before

the cyclone."

On the heels of the cyclone

came the unwelcome news that

the president had promised to

appoint C. M. Barnes governor.

But the Chandler News had to

be blown away before such a

state of affairs was possible.

The cyclone unveiled hearts

as thoroughly as it dismantled

homes. Hereafter it will be

known who are the unselfish,

generous friends of humanity,

and, alas, it cannot but be re-

membered who are the selfish

and grasping. For the latter

class exists, although in the mi-

nority, we trust.

When the springtime comes, gen-

tle Annie, like all other sensible

persons, will cleanse the liver and re-

novate the system with DeWitt's Little

Early Risers, famous little pills for

the liver and stomach all the year

round. City Drug Store.
